

General Cleaning of a Resident Room

1 Assessment

- Follow additional precautions if posted
- Walk-through - do you need any special cleaners or equipment?
- Remove clutter

2 Gather Cleaning Supplies

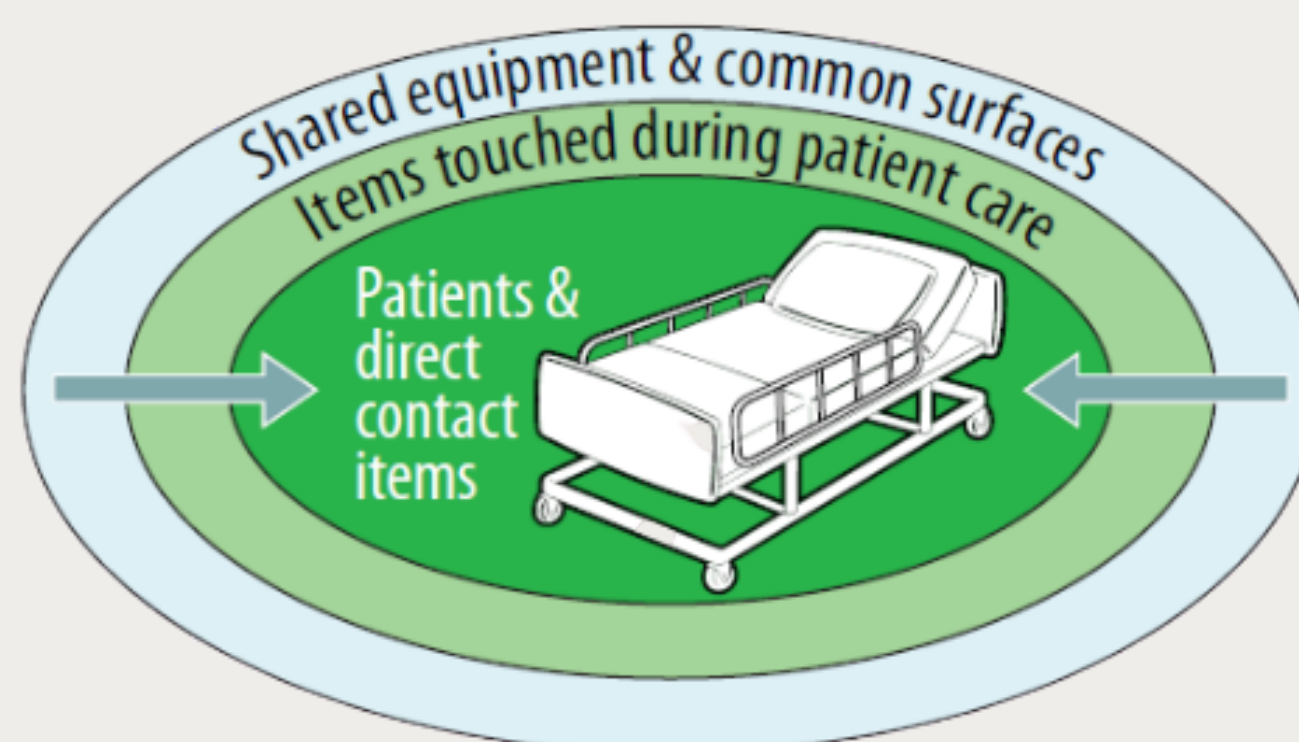

3 Clean hands with alcohol-based hand rub

- Put on any PPE needed

4 Clean room

- Work from high to low and clean to dirty

5 Disposal

- Place soiled cloths in designated container for laundering
- Remove soiled linen if bag is full
- Remove waste

6 Remove gloves and clean hands

- DO NOT leave room wearing gloves or other PPE
